

PLEASE JOIN THE GRASSROOTS RECYCLING NETWORK

The GrassRoots Recycling Network is a North American network of activists and recycling professionals dedicated to building sustainable communities and businesses based on the principle of Zero Waste.

Corporate Accountability

GRRN advances the principle of Extended Producer Responsibility for products and packaging waste through policy promotion and direct consumer action. GRRN targets wasteful corporations while highlighting Zero Waste businesses.

Zero Waste Policies

GRRN supports local, state, and federal policies that change the rules and level the playing field so that resource-conserving businesses can enjoy their natural advantages and out-compete resource-wasting businesses every time.

Zero Waste Communities

GRRN helps communities develop strategies to manage discards as resources rather than as waste. Pursuing Zero Waste can lead to breakthroughs when resources and the creativity of citizens, policy-makers, and engineers are redirected to developing solutions based on providing clean streams of resources to local entrepreneurs.

Yes, I support promoting Zero Waste and holding corporations accountable.

Here's my contribution of:

- \$15 (student rate) \$50
 \$35 \$100

Become a "Zero Hero" by contributing:

- \$250
 \$500
 \$1000
